

Figure 1 consists of 11 bar charts, each representing a different demographic or lifestyle category. The x-axis for all charts represents age groups: 18-24, 25-34, 35-44, 45-54, 55-64, and 65+. The y-axis represents the percentage of respondents, ranging from 0% to 100%.

- 1. Gender:** Shows the percentage of Male and Female respondents. Male percentages are generally higher in the 18-24 and 25-34 age groups, while Female percentages are higher in the 35-44 and 45-54 age groups.
- 2. Education:** Shows the percentage of respondents with a High School diploma versus a Graduate degree. Graduate degree holders are more prevalent in the 25-34 and 35-44 age groups.
- 3. Income:** Shows the percentage of respondents in Low, Medium, and High income brackets. High income respondents are more prevalent in the 45-54 and 55-64 age groups.
- 4. Marital Status:** Shows the percentage of respondents who are Single, Married, Divorced, or Widowed. Married respondents are the most prevalent across all age groups, particularly in the 35-44 and 45-54 age groups.
- 5. Employment:** Shows the percentage of respondents who are Full-time, Part-time, or Unemployed. Full-time employment is most prevalent in the 25-34 and 35-44 age groups.
- 6. Health:** Shows the percentage of respondents in Good, Fair, or Poor health. Good health is most prevalent in the 18-24 and 25-34 age groups.
- 7. Living Arrangement:** Shows the percentage of respondents living Alone, With Family, or With Friends. Living with family is most prevalent in the 18-24 and 25-34 age groups.
- 8. Transportation:** Shows the percentage of respondents who own a Car, use a Bike, or use Public transportation. Car ownership is most prevalent in the 25-34 and 35-44 age groups.
- 9. Communication:** Shows the percentage of respondents who use a Phone, Internet, or Both. Both Phone and Internet usage are high across all age groups, with Internet usage being slightly higher in the 25-34 and 35-44 age groups.
- 10. Social Media:** Shows the percentage of respondents who use Facebook, Twitter, Instagram, or LinkedIn. Facebook and Twitter usage are most prevalent in the 25-34 and 35-44 age groups.
- 11. Hobbies:** Shows the percentage of respondents who engage in Reading, Traveling, Gardening, or Sports. Reading is most prevalent in the 18-24 and 25-34 age groups, while Traveling is most prevalent in the 35-44 and 45-54 age groups.
